

Evan Pouteau

BUT MMI student · Front-end web developer

● Web development internship · April 12 → June 18, 2027

Passionate about code: I love taking an idea, designing the database and building clean, interactive interfaces. Two Next.js + Supabase apps in production.

My projects

Egyptian Arabic — personal project, live

NEXT.JS · REACT · TYPESCRIPT · SUPABASE · VERCEL

App for learning the Cairo dialect: 30 modules (levels A1 to B2) structured in JSON and rendered dynamically.

Muscu — personal project, live

NEXT.JS · SUPABASE · VERCEL

Workout tracking app: a four-day program stored in the database, used every day.

Le Lobby de l'Urbex — solo project

PHP · SQL · DOCKER

Database design (data model, SQL queries) and a PHP/PDO CRUD secured with prepared statements; deployed with Docker on Render.

Gestural portfolio — experiment

JAVASCRIPT · CANVAS · MEDIAPIPE

Interface driven by hand gestures (MediaPipe Hands), with smooth rendering and custom parallax in HTML5 Canvas.

Filia — team project (3 people)

UX RESEARCH · UI DESIGN

Qualitative interviews and personas to understand the target users' psychological and technical needs.

Education

BUT MMI — Web Development track
